

# Custom Designed - Built to Last!

Custom designed and built with quality aluminum, LaPax Awnings have been trusted for over 60 years. Our awnings feature architectural certification and are engineered to support 30 lbs. per square foot live load. Combined with our rugged interlocking slat system, LaPax Awnings deliver exceptional strength and durability - built to withstand severe storms and winds, while providing reliable comfort and protection.

In addition to enhancing the appearance and value of your property, LaPax Awnings help keep your home cooler in the summer.

# Designed to Fit Your Needs!

Manufactured with .027 thick aluminum top slats and a .051 thick frame system, LaPax Awnings feature a rugged interlocking slat system and riveted assembly for exceptional strength and long-term durability.

**LaPax Aluminum Awnings are  
custom manufactured for:**

### *– Patios*

Perfect for enhancing porches, decks, and outdoor living spaces.

### *– Carports*

Shield vehicles from weather, summer heat, and harmful UV rays.

### *– Campers*

Create a shaded patio space, protect slide-outs, and help preserve your investment.

### *– Doors*

Add shade, comfort, and weather protection to your entryway year-round.

### *– Windows*

Reduce direct sunlight, maintain a cooler home, and save on energy.

*The special louver design of LaPax Window Awnings provide free circulation of air, while protecting against rain, wind, and direct sunlight.*
